OPEN TO THE PUBLIC:

The **Mayor** opened the meeting to the public for general concerns and comments.

At this time questions, concerns or comments emailed in advance to the Borough Clerk were addressed. There were no email questions from the public at this time.

Administrator Seemon asked individual members of the Public to speak at this time.

Jack Bricca–Hall – 26 Vreeland Avenue - asked why the trees that lined Godwin Avenue near Vreeland Avenue have been cut down. Administrator Seemon explained the trees, which are Bradford pear trees, were in the right-of-way and are known to create a public hazard and are outlawed in many states. They tend to rot and get tangled in the overhead wires and lift sidewalks, as well as have limbs drop during storms, creating needless costs for the Borough and the residents. There is a plan to plant trees in different locations throughout the Borough, more appropriate places for trees than between the curb and sidewalk.

Ester Vierheilig – 333 Godwin Avenue - expressed great sorrow at the loss of the trees, noting that many that were taken down appeared to be healthy trees and not under the overhead lines and the sidewalks were not raised. She stated they should have been trimmed properly and by cutting down the trees Midland Park has lost some of the “park like feel” and looks empty. She is also sad there is no plan in place to replace the trees along the street.

Gerri Koch – 22 Center Street - was distraught to see the trees were removed without sharing the plan with the residents. She expressed annoyance that it was done during a pandemic when residents have been ordered to stay at home and not out and about. She asked who gave the authorization for going forward with the removal of the trees and would like to see a plan for replanting. Godwin Avenue is no longer a tree-lined street which takes away the appeal and beauty and she feels there should be reconsideration of the decision. She too stated the trees should have been pruned properly and feels it was very destructive. Administrator Seemon addressed her concerns: he and the Department of Public Works Superintendent are part of the Shade Tree committee and their job to identify trees hazardous to the public. These trees were identified as hazardous because of the potential for limbs coming down and the roots raising the sidewalks; it was all about safety for the residents. He stated more trees will be planted in places where they will not be a public hazard like in the parks. He acknowledged it seems drastic but assured the residents that more trees will be planted throughout the Borough. He reiterated that this particular species of tree, the Bradford pear tree, have been outlawed in most states because of the way they rot and taking them down was to avoid future problems. Ms. Koch stated that by removing them, it has created a problem by not allowing any input from the people in the town. She is not satisfied with this response and plans to take it a step further.

There being no further response, the **Mayor** closed the meeting to the public.
