In our instance, we're going to show you that it's not, but we can accommodate far more than that because, contrary to the typical drive-through where you're queuing from a roadway in, and then you're going into a drive-through and then leaving and going out on a public roadway again, this is going to be very different. In this instance, we're going to have a situation where all of the traffic for this restaurant will be able to be accommodated on the private property, itself. In other words, through the driveway that's into the shopping center, itself, coming around the driveway itself. And in this site specifically, I think we queue about 11 cars, so it's more than adequate to get through an hour pretty efficiently and get the customers out. Q. Now, is the reason the queuing is so 	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 queueing area. And so from the first position in the queuing area to the pickup window, which is at the other end of the building, there are it stacks 11 cars, which is a pretty significant amount of stacking. Having said that, we will probably, more than likely, with a small percentage of cars coming in on Rea Avenue, have an alternate queue in this area here (indicating). But, clearly, you can see by the size of this drive here, it's not marked out by cars, but it's a pretty significant distance between the main entrance and our pickup window. So this kind of drive scenario will accommodate anything additional if there were emerging situations. Q. So, in essence, you're anticipating the majority of your traffic coming over the main artery,

On the basis of anybody coming here to get their food, they would not be using that exit; correct, because this they don't get served until they're on the other side of the building? A. That is correct. Q. So from the standpoint of a customer going out onto Godwin Avenue, that's not going to occur if they're in there placing an order? A. That's correct. Q. In one of our letters that we received, I believe from Mr. Wostbrock, I think it was also confirmed from our the planner's report that that exit that exists there right now is nonconforming in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	32 THE WITNESS: So I am employed by PN Restaurants. MHF is a subsidiary of PN Restaurants. CHAIRMAN ANDERSEN: Okay. Wholly-owned or THE WITNESS: Yes. CHAIRMAN ANDERSEN: Okay. And you're authorized to speak on behalf of MHF? THE WITNESS: I am, yes. CHAIRMAN ANDERSEN: All right. Your testimony regarding the excess queue, I question whether that's realistic, because if you're if you're coming out of CVS, I actually use CVS, and that's how I go out. So if if there were cars backed up there, how would I get out onto Rea Avenue? In other words, if you're coming from CVS THE WITNESS: So if you're coming from this direction here? CHAIRMAN ANDERSEN: Yes. THE WITNESS: Okay. CHAIRMAN ANDERSEN: And to go home, I

There is a situation or an opportunity that may arise, somebody entering from Rea Ave., somebody coming in from this area, and then they're alternating, right? But it wouldn't be a significant amount of time when that happens. That would be if we ever exceeded the 11 cars. The 11 cars is more than ample for this type of business.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	of operation again? THE WITNESS: We are open on Sundays, but it's it's one hour less than on Friday and Saturday. MALE BOARD MEMBER: All right, thank you. MALE BOARD MEMBER: Just a couple questions. I want to go go back to the proposed extra staging area, a couple of, you know Rich and Les mentioned about that as well. Those are parking spaces over there where you're proposing if there's going to be any stacking, that's right by the big flagpole, and if you're going to have cars stacking there potentially, you also got people parking there. I park there and go to Dunkin' Donuts, you know, so potentially you could have people lining

THE WITNESS: So let's say we get a hundred cars in those three hours through the drive-through, you'd get a quarter of that right now using the mobile app and the third-party delivery. MALE AUDIENCE MEMBER: All right. So 25 THE WITNESS: That's the ratio, correct. MALE BOARD MEMBER: So you 25. THE WITNESS: Correct. MALE AUDIENCE MEMBER: The people who order with the mobile app, come with pre-orders, they order ahead of time, can they pick up their food in the drive-through? THE WITNESS: They can if they want to. MALE BOARD MEMBER: Okay. MALE BOARD MEMBER: What kind of

45 1 tandem truck, small tractor-trailer? I mean, you 2 couldn't... I don't know if... 3 MR. WHITAKER: Our engineer is going to 4 testify --5 MALE AUDIENCE MEMBER: Okay. 6 MR. WHITAKER: -- as to the truck and 7 the truck radius. 8 MALE BOARD MEMBER: Okay. 'Cause the 9 -- I could ask the engineer my questions then --10 MR. WHITAKER: Yes. 11 MALE AUDIENCE MEMBER: -- when he comes 12 up. 13 MR. WHITAKER: Yes, he's the next 14 witness. 15 CHAIRMAN ANDERSEN: Okay, is he the 16 next --17 MALE BOARD MEMBER: You were -- you 18 were talking about deliveries though; correct, 19 before? The witness. 20 THE WITNESS: I'm sorry? 21 MALE BOARD MEMBER: I mean you were 22 talking about deliveries and the hours and all that, 23 so it is a link, but -- so you can talk about 24 deliveries, but then they have to talk about what 25 size trucks would be delivering. LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812 46 1 THE WITNESS: Correct. 2 MALE BOARD MEMBER: Correct. 3 So it is a legitimate question. 4 MR. WHITAKER: I just had the answer. 5 'Cause our engineer designed where the truck would 6 park and what the size truck would be. 7 MALE BOARD MEMBER: Got it. 8 CHAIRMAN ANDERSEN: Anybody else? 9 MALE AUDIENCE MEMBER: I have a quick 10 question, when you -- just so I understand the 11 numbers and the volume, you said in that three-hour 12 period, you might get a hundred cars through the 13 drive-through, and you'd get 25, maybe 25 people or 14 orders in that same three-hour window that are 15 pre-ordered by the app or Grub Hub, right? 16 THE WITNESS: Correct. 17 CHAIRMAN ANDERSEN: Are there any other 18 customers beyond that, so they don't -- so the people 19 who don't pre-order, maybe someone just leaves their 20 office and they want to go and sit down and eat, 21 that's a whole different category of sales; right? 22 THE WITNESS: So -- so that would be 23 included in that 25 percent. 24 MALE AUDIENCE MEMBER: That's my 25 question, okay. LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812

47 1 THE WITNESS: Yes. 2 MALE AUDIENCE MEMBER: So you get, in 3 those three hours, you're talking about 125 customers 4 altogether? 5 CHAIRMAN ANDERSEN: No, the 25 are part 6 of the hundred. 7 THE WITNESS: I'm talking about a total 8 hundred transactions, let's say --9 MALE AUDIENCE MEMBER: Yeah. 10 THE WITNESS: -- 75 percent of them 11 being through the drive-through and 25 percent being 12 through the other means. 13 MALE AUDIENCE MEMBER: Oh, okay. 14 THE WITNESS: That's what I would 15 anticipate. 16 MALE AUDIENCE MEMBER: So a hundred 17 transactions in the three hours. 18 THE WITNESS: That's what I would 19 anticipate. 20 MALE AUDIENCE MEMBER: I gotcha, I 21 gotcha. Okay. 22 MALE AUDIENCE MEMBER: With that count 23 you just gave, what about the people who walk inside 24 then to order and decide to stay there or walk 25 inside? Is that in addition to what you just said LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812 48 1 for the drive-through and the Grub Hub type? 2 THE WITNESS: That's included in that 3 25 percent; walk-in customers as well. 4 So total of 25 percent that would be 5 walking inside, either using a kiosk to order, 6 ordering directly through a crew member, or using a 7 third-party app. 8 CHAIRMAN ANDERSEN: So then earlier you 9 stated maximum of 30 to 35 cars per hour, beginning 10 at 10:00 a.m. 11 So if that's the case, you know, that's already a hundred, and now you're saying that also 12 13 includes people going inside. So which is it? 14 If there's people inside, they're not 15 going to be in the drive-through. 16 THE WITNESS: So -- so if you -- so I 17 can't determine if someone orders on an app where 18 they're actually picking up the order. 19 They may decide to go through the 20 drive-through. So there's a little bit of an overlap 21 there. 22 What I would anticipate is, 25 percent 23 of our total customers using those third-party means 24 of ordering, whether it's a phone, whether it's 25 walk-up, whether it's a third-party delivery system. THE WITNESS: In the total three hours? MALE BOARD MEMBER: Yes. THE WITNESS: Probably about 125 total. MALE BOARD MEMBER: So we've got 125. THE WITNESS: Yes. MALE BOARD MEMBER: Okay. 2 3 4 5 6 7 8 9 10 11 12 13 14 15	THE WITNESS: So it's a maximum. When I say 30 to that's a maximum number MALE AUDIENCE MEMBER: Right. THE WITNESS: right? It's just not happening. So, you know, to to kind of level off the playing fields, for lunch I try to paint the picture of what lunch is going to look like, right?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	everybody, how many transactions do you think would occur in that three hours? THE WITNESS: In the total three hours? MALE BOARD MEMBER: Yes. THE WITNESS: Probably about 125 total. MALE BOARD MEMBER: So we've got 125. THE WITNESS: Yes. MALE BOARD MEMBER: Okay. And of that THE WITNESS: That's ballpark, right? I mean that's MALE BOARD MEMBER: I know. Yeah, if it's 126 then we shut you down. THE WITNESS: Or it could be 80, right.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	THE WITNESS: So it's a maximum. When I say 30 to that's a maximum number MALE AUDIENCE MEMBER: Right. THE WITNESS: right? And of that THE WITNESS: That's ballpark, right? I mean that's MALE BOARD MEMBER: I know. Yeah, if it's 126 then we shut you down. THE WITNESS: Or it could be 80, right. MALE Board MEMBER: No, I'm just kidding.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	THE WITNESS: So it's a maximum. When I say 30 to that's a maximum number MALE AUDIENCE MEMBER: Right. THE WITNESS: right? 7	challenging properties or setup that I've seen in	7	You have seven or eight people
8	typical QSRs. Right? You pull into the property and	8	ordering, somebody comes in, they pick it up and they
9	you're automatically in the drive-through queue.	9	qo.
10	So in this case with this property, you	10	You don't get the same size order on

65 1 the 125 the town requires, but operationally how many 2 parking with this size? 3 THE WITNESS: So I think 11 is -- is 4 adequate for the site. 5 MALE BOARD MEMBER: Is it the right 6 number or is --7 THE WITNESS: I think it's the right 8 number. 9 MALE BOARD MEMBER: -- eight the right 10 number or is 14 the right number? 11 THE WITNESS: So I've seen buildings 12 with 10. 13 I've seen some buildings that queue --14 in other concepts of ours, for breakfast concept, for 15 example, where the time frame is even more critical 16 to the customer, I've seen drive-throughs that queue 17 eight or nine. And they work, they work okay. 18 I mean, in this case what I anticipate 19 is that -- and I think we all do it, you pull into a 20 business and you see the drive-through line is long, 21 you get out of your car. 22 I'm not a -- particularly me as a 23 consumer, I'm not a drive-through customer. I like 24 to go inside the business, right? It's just old 25 habits, it's what I've done forever. LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812 66 1 But -- but typically what I see is

2 customers pull on, if they see a long drive-through 3 line, they're going to park their car and they're 4 going to walk inside. 5 And those are the customers that plan 6 on ordering at the POS or at the kiosks. 7 Like I said, we see that number on 8 digital ordering moving every -- every single month. 9 We see the number increasing slightly in terms of 10 customers. 11 MALE BOARD MEMBER: The other question **12** I had is you talked about the main entry being -- the 13 main entry of this center on Godwin, the center of 14 the property. 15 But when I look at this development, 16 it's kind of on its own because of the other 17 properties that aren't part of the center, and all 18 the signage for the building, everything that's 19 there, there's nothing, to me as a driver, bringing 20 me to that front entrance that you think people are 21 going to go through. 22 To me, I'd go up, you know, South Rea, 23 Rea Avenue, and go into that alternate entrance 24 that's the main entrance, that's where all the 25 signage is.

LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812

1 You know, how are you going to attract 2 people to use that main entrance to get to the queue? 3 THE WITNESS: So I think initially when 4 we first open, I think there is a possibility of 5 people missing that initial entrance on Godwin, and 6 then making a left turn onto Rea. 7 I think once they realize that we're 8 there, they'll figure out that Godwin is an easier 9 entrance, or maybe even going in by the CVS. 10 Now, the CVS drives a lot of traffic 11 for the shopping center, obviously, right? So I 12 think there will be a good amount of customers that 13 come from the CVS over to eat by us. 14 But I think that ultimately when the 15 cars kind of figure out the traffic pattern, the 16 customers themselves, I think Godwin will be the main 17 entrance. 18 I think there's a possibility that they 19 may miss it and then go on Rea, but I think it'll be 20 a small percentage. 21 MALE BOARD MEMBER: I'll be on Rea. 22 CHAIRMAN ANDERSEN: Did you have 23 anything, David? 24 MALE BOARD MEMBER: Just one of two 25 questions, thank you. Just to -- I'm sorry to go LAURA A. CARUCCI, C.S.R., R.P.R., L.L.C. 201-641-1812 68 1 back to the numbers, but just to -- to summarize, 2 within a three-hour period there would be roughly 125 3 transactions; correct? 4 THE WITNESS: Correct. 5 MALE BOARD MEMBER: I mean some days 6 better, some days worse. 7 THE WITNESS: Right. 8 MALE BOARD MEMBER: Of that, about a 9 hundred would be through the drive-through, the other 10 25 would be inside the building. THE WITNESS: Correct. 11 12 MALE BOARD MEMBER: Okay. The ones 13 that are inside the building, just so I have it clear 14 in my mind, would be people that prefer to just order 15 inside and then leave immediately, people that might 16 want to dine inside, as well as some Grub Hub 17 takeout. 18 THE WITNESS: Correct. 19 MALE BOARD MEMBER: I'm using Grub Hub 20 generally. 21 THE WITNESS: Yes. 22 MALE BOARD MEMBER: Okay. I just 23 wanted to get that clear in my head. 24 And the last question I had was 25

regarding those third-party delivery apps, things

I had stated earlier that the parking that we have on site, you've testified 170 spaces, is in excess of what the requirements are under the parking requirement for Midland Park; correct? A. That's correct. Under the parking requirements for Midland Park, we need 167 spaces. And that is
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	But at this point in time, we have stipulated that more than likely we'll eliminate that Godwin Avenue exit because that is a nonconformity with its proximity to the next driveway to the nail salon and barber business, so that is why we will be revisiting that. I think you're the Burgis report from January very succinctly summarizes the bulk bulk requirements and how this project complies. That's found on the Burgis report of January 20th, page 4. We are in the B3 zone district, so this requires a minimum lot area of 10,000 square feet. We exceed that by a factor of 15. This is 154,555 square feet. The lot width is required to be 100 feet. This lot from side to side is 321 feet.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	will be 33 feet to Godwin and 30 feet to Rea, so we will comply. In our this case, we don't have a side yard, so that's not a factor. The rear minimum rear yard is required to be 25 feet. This proposed restaurant will be 134 feet to the back line. So that's our zoning compliance. BY MR. WHITAKER: Q.
